

# VMware Cloud

**Build, Scale, and Secure  
Your Cloud Infrastructure  
Effortlessly.**

A fully customizable, VMware powered cloud environment that lets you deploy and manage virtual machines with ease. Enjoy predictable billing, intelligent management, and enterprise grade performance. All within Indonesia top-tier data centers.

## Why Choose Zettagrid VDC?

### VMware Powered Cloud Infrastructure

Enterprise power.  
VMware precision.  
Cloud performance  
you can trust.

### Workload Based Sizing

Right sized to fit  
your workloads,  
not a fixed package.

### Predictable Billing

Clear pricing  
no surprise.

### Full Control Zero Complexity

Manage your  
VMware cloud easily  
through Zettagrid portal.

### Sovereign Cloud

Local cloud,  
global grade security.

## KEY FEATURES

### Pooling Compute Resource

Lets you dynamically share compute resources across multiple VMs.

### Built-in Networking & Security

Integrated firewall, segmentation and secure connectivity for your workloads.

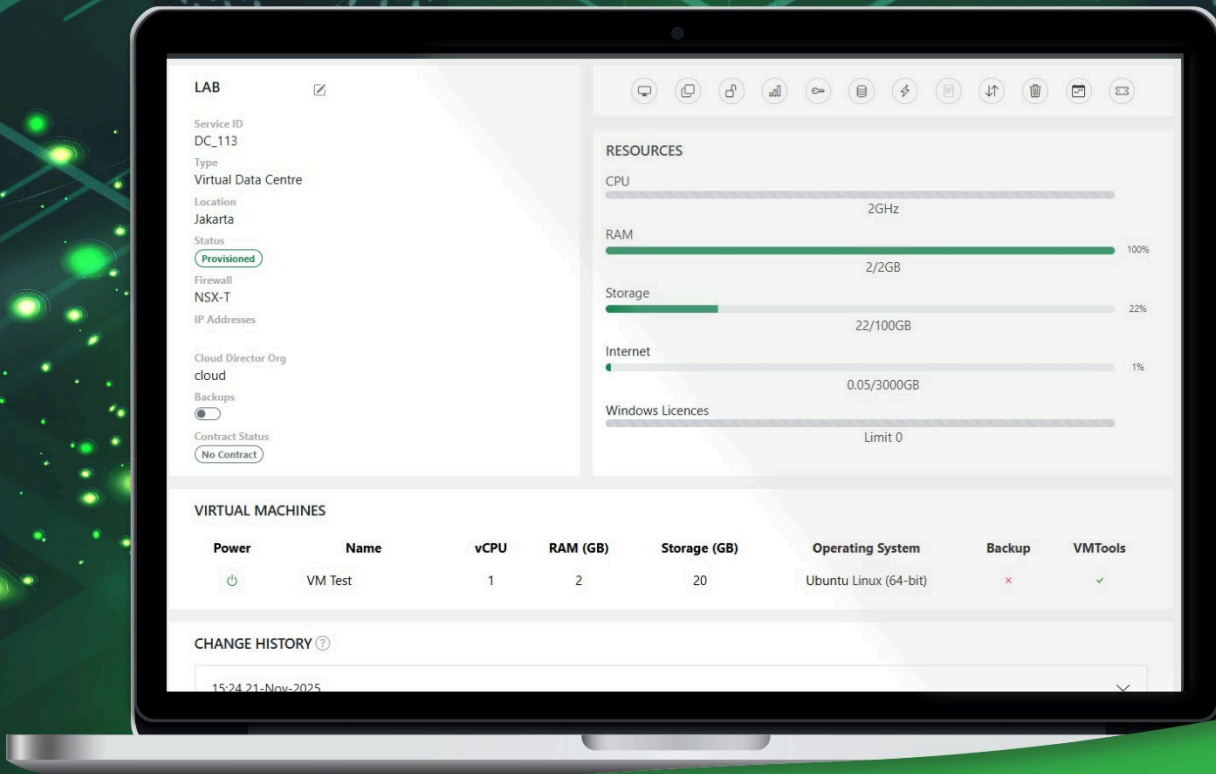

### Intuitive Dashboard

Full visibility & metrics for monitoring across compute, storage, and networking.

# SLA 99.95%

# Security & Compliance

## USE CASE

### Migrate Critical Workloads to Cloud

Seamlessly move production systems into a secure, VMware powered environment that supports enterprise applications such as ERP, databases, and e commerce.

### Machine Learning and AI

Accelerate AI/ML workloads using GPU enabled cloud compute options available within ZettaGrid cloud infrastructure.

### Disaster Recovery

Protect critical systems with continuous replication and fast failover across zones, enabling resilient disaster recovery for business critical applications.
